Profile

Product Designer with hands-on experience in end-to-end UX and UI — from research and flows to final UI and design systems. I translate complex requirements into intuitive experiences that align with both user needs and business goals.

After a career break, I'm returning to the field with renewed energy and an up-to-date perspective on modern design practices and tools, including AI-assisted workflows. Proficient in Figma and eager to bring both my experience and fresh thinking to a new team.

Employment

Career Break - Family Focus

2023 - 2026 | 2.5 years

Product Designer, Sunday Security

2022 - 2023 | 2 years

Designed UX and UI across mobile and web platforms for a personal cybersecurity product. Conducted user research, defined user flows and information architecture, and built a design system ensuring consistency across products. Collaborated with product, development, and marketing teams. Performed Design QA to ensure high-quality implementation.

Product Designer, Max Impact

2021 - 2022 | 6 months

Designed UX/UI for a mobile app for the Israeli Accessibility Association, focusing on accessibility and inclusive design.

Office Admin, SAIPS

2020 - 2021 | 1.5 years

Managed the company website, overseeing content updates and maintenance, and supporting internal operational projects.

Education

Codesigner, UX / UI Design Diploma

2021 - 2022

Ben-Gurion University, B.A. in Behavioral Sciences

2016 - 2019
